Re: Freedom of Information Act Request

Dear Ms. Graves:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of the U.S. Department of Agriculture (USDA), 7 C.F.R. Part 1, American Oversight makes the following request for records. In particular, American Oversight seeks records that will provide the public with information about the pervasiveness of slogans and terms associated with political campaigns among federal employees and that will shed light on how the Hatch Act is being enforced.

Requested Records

American Oversight requests that USDA produce within twenty business days:

All communications (including emails, email attachments, calendar invitations or entries, and text messages) including any of the following terms:

- “great again”
- MAGA^{*1}
- #MAGA
- “drain the swamp”
- #draintheswamp
- “build the wall”
- “build that wall”

¹ Please note that American Oversight is using the asterisk (*) to designate the standard use of “wildcards” in the search for responsive records. For example, a search for “MAGA*” would return all of the following: MAGA!, MAGAnomics, etc. If your agency is unable to search for wildcards, please advise so that we may specifically include the variations that we would like searched.

- #buildthewall
- #buildthatwall
- “promises made”
- “promises kept”
- #promiseskept
- Trump2020
- #trump2020
- “Trump Train”
- #trumptrain
- “Keep America Great”
- #keepamericagreat
- “lock her up”
- #lockherup
- “lock them up”
- #lockthemup
- #GOP
- Finish the wall
- Finish that wall

American Oversight requests that USDA search the records of the following custodians:

- Farm Service Agency (FSA) Tennessee State Executive Director Dennis H. Beavers
- FSA Washington State Executive Director Brian Dansel
- USDA Rural Development (RD) Arizona State Director James C. Sherman III
- USDA RD State Director of Alabama Chris Beeker III
- USDA RD State Director of Virginia Beth Walker Green
- USDA RD State Director of Hawaii and Western Pacific Gigi Jones
- USDA RD State Director of West Virginia Kris Warner
- USDA RD State Director of North Dakota Clare Carlson
- USDA RD State Director of California Kimberly Dolbow Vann

In addition to the records requested above, American Oversight also requests records describing the processing of this request, including records sufficient to identify search terms used and locations and custodians searched and any tracking sheets used to track the processing of this request. If USDA uses FOIA questionnaires or certifications completed by individual custodians or components to determine whether they possess responsive materials or to describe how they conducted searches, we also request any such records prepared in connection with the processing of this request.

American Oversight seeks all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the terms “record,” “document,” and “information” in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. **No category of material should be omitted from search, collection, and production.**

Please search all records regarding agency business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.² **It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, through negligence or willfulness, failed to meet their obligations.**³

In addition, please note that in conducting a “reasonable search” as required by law, you must employ the most up-to-date technologies and tools available, in addition to searches by individual custodians likely to have responsive information. Recent technology may have rendered USDA’s prior FOIA practices unreasonable. **In light of the government-wide requirements to manage information electronically by the end of 2016, it is no longer reasonable to rely exclusively on custodian-driven searches.**⁴ Furthermore, agencies that have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies, now maintain emails in a form that is reasonably likely to be more complete than individual custodians’ files. For example, a

Dec. 12, 2016) (“The Government argues that because the agency had a policy requiring [the official] to forward all of his emails from his [personal] account to his business email, the [personal] account only contains duplicate agency records at best. Therefore, the Government claims that any hypothetical deletion of the [personal account] emails would still leave a copy of those records intact in [the official’s] work email. However, policies are rarely followed to perfection by anyone. At this stage of the case, the Court cannot assume that each and every work-related email in the [personal] account was duplicated in [the official’s] work email account.” (citations omitted)).

custodian may have deleted a responsive email from his or her email program, but USDA’s archiving tools would capture that email under Capstone. Accordingly, American Oversight insists that USDA use the most up-to-date technologies to search for responsive information and take steps to ensure that the most complete repositories of information are searched. American Oversight is available to work with you to craft appropriate search terms. **However, custodian searches are still required; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.**

Under the FOIA Improvement Act of 2016, agencies must adopt a presumption of disclosure, withholding information “only if . . . disclosure would harm an interest protected by an exemption” or “disclosure is prohibited by law.”⁵ If it is your position that any portion of the requested records is exempt from disclosure, American Oversight requests that you provide an index of those documents as required under *Vaughn v. Rosen*, 484 F.2d 820 (D.C. Cir. 1973), *cert. denied*, 415 U.S. 977 (1974). As you are aware, a *Vaughn* index must describe each document claimed as exempt with sufficient specificity “to permit a reasoned judgment as to whether the material is actually exempt under FOIA.”⁶ Moreover, the *Vaughn* index “must describe *each* document or portion thereof withheld, and for *each* withholding it must discuss the consequences of disclosing the sought-after information.”⁷ Further, “the withholding agency must supply ‘a relatively detailed justification, specifically identifying the reasons why a particular exemption is relevant and correlating those claims with the particular part of a withheld document to which they apply.’”⁸

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document.⁹ Claims of nonsegregability must be made with the same degree of detail as required for claims of exemptions in a *Vaughn* index. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

You should institute a preservation hold on information responsive to this request. American Oversight intends to pursue all legal avenues to enforce its right of access under FOIA, including litigation if necessary. Accordingly, you are on notice that litigation is reasonably foreseeable.

To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or

duplication costs. By working together at the outset, American Oversight hopes to decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in electronic format by email or in PDF or TIF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and 7 C.F.R. Part 1, Subpart A, Appendix A, Section 6, American Oversight requests a waiver of fees associated with processing this request for records.

Disclosure of the requested information is in the public interest as it is likely to contribute significantly to public understanding of government operations and activities.¹⁰ The records will assist the public in understanding the state-level offices that are implementing agricultural policy. Specifically, the requested records have the potential to shed light on any undue political influence affecting programs that America's farmers depend on. The disclosure of the information sought under this request will document and reveal the operations of the federal government, including whether political appointees are discharging their responsibilities in the apolitical manner required by law. The requested records reflect directly on the integrity of federal activities, and significant media interest in these issues show that the requested disclosures will contribute significantly to the understanding of the American people. And, as described in more detail below, American Oversight "will disseminate the information to a reasonably broad audience of persons" through its social media accounts and its website.

This request is primarily and fundamentally not for commercial purposes, but rather the primary interest is in public disclosure of responsive records.¹¹ As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.¹² American Oversight has

demonstrated its commitment to the public disclosure of documents and creation of editorial content. For example, after receiving records regarding an ethics waiver received by a senior DOJ attorney,¹³ American Oversight promptly posted the records to its website and published an analysis of what the records reflected about DOJ's process for ethics waivers.¹⁴ As another example, American Oversight has a project called "Audit the Wall," where the organization is gathering and analyzing information and commenting on public releases of information related to the administration's proposed construction of a barrier along the U.S.-Mexico border.¹⁵

Accordingly, American Oversight qualifies for a fee waiver.

Conclusion

We share a common mission to promote transparency in government. American Oversight looks forward to working with USDA on this request. If you do not understand any part of this request, have any questions, or foresee any problems in fully releasing the requested records, please contact Hart Wood at foia@americanoversight.org or 202.873.1743. Also, if American Oversight's request for a fee waiver is not granted in full, please contact us immediately upon making such a determination.

Sincerely,
