Dear Freedom of Information Act Officer:

In March 2019, Chairman Cummings of the House Oversight Committee sent a letter to the White House Counsel detailing White House Adviser Jared Kushner’s use of private email and messaging applications—specifically WhatsApp—in conducting official business, including in communications with foreign leaders.¹ In light of Mr. Kushner’s extensive influence² in over a wide range of policies across the Trump administration and involvement in a wide variety of government initiatives—from sensitive diplomacy to veterans affairs to criminal justice reform—American Oversight seeks records with the potential to shed light on Mr. Kushner’s influence on federal policy and high-ranking agency officials. Public reports demonstrate that some of Mr. Kushner’s communications regarding federal government business with these officials are likely sent through the WhatsApp messaging application.

Furthermore, Kushner has extensive ties to the real estate world including potential interests in major initiatives of Secretary Carson, such as the HUD program that designates “opportunity

zones.” The Trump family also has close ties to senior HUD advisor Lynne Patton, who in her efforts to remove another HUD appointee, wrote, “Dr. Carson & his team deem [the appointee] divisive and disruptive, as do I. If it helps, Eric Trump agrees that it’s best to nip this potential problem in the bud & told me to call Jared [Kushner], if necessary, but I prefer to go through you all first,” suggesting she maintains contact with Kushner.

American Oversight seeks records to shed light on whether and to what extent Kushner is participating in HUD policy matters and to what extent he has done so using private messaging platforms.

**Requested Records**

American Oversight requests that HUD produce the following records within twenty business days:

All WhatsApp messages sent or received between (1) the HUD officials listed below and (2) White House adviser Jared Kushner. Screenshots or other copies of WhatsApp messages with Mr. Kushner are responsive to this request.

i. Secretary Ben Carson
ii. Senior Advisor Lynne Patton

Given the reports establishing both that Mr. Kushner regularly uses WhatsApp messages for communications regarding official government business and Mr. Kushner’s relationship with the relevant agency officials, the agency must conduct an adequate search for responsive WhatsApp messages “reasonably calculated to uncover all relevant documents.” *Valencia-Lucena v. U.S. Coast Guard*, 180 F.3d 321, 325 (D.C. Cir. 1999) (citations omitted). An adequate search will likely require asking officials with knowledge to aid in identifying responsive records. Although many agencies have policies requiring that official text messages copy an agency employee’s email address, an electronic search of email records would not be a sufficient search for this request because WhatsApp messaging applications do not have the technological capability to permit copying or forwarding to an email address.

Please provide all responsive records from January 20, 2017, through the date the search is conducted.

In addition to the records requested above, American Oversight also requests records describing the processing of this request, including records sufficient to identify search terms used and

locations and custodians searched and any tracking sheets used to track the processing of this request. If your agency uses FOIA questionnaires or certifications completed by individual custodians or components to determine whether they possess responsive materials or to describe how they conducted searches, we also request any such records prepared in connection with the processing of this request.

Please search all records regarding agency business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA. It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; **American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, through negligence or willfulness, failed to meet their obligations.**

In addition, please note that in conducting a “reasonable search” as required by law, you must employ the most up-to-date technologies and tools available, in addition to searches by individual custodians likely to have responsive information. Recent technology may have rendered your agency’s prior FOIA practices unreasonable. **In light of the government-wide requirements to manage information electronically by the end of 2016, it is no longer reasonable to rely exclusively on custodian-driven searches.** Furthermore, agencies that have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies, now maintain emails in a form that is reasonably likely to be more complete than individual custodians’ files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools would capture that email under Capstone. Accordingly, American Oversight insists that your agency use the most up-to-date technologies to search for responsive information and take steps to ensure that the most complete repositories of information are searched. American Oversight is available to work with you to craft appropriate search terms. **However, custodian**

5. See Competitive Enter. Inst. v. Office of Sci. & Tech. Policy, No. 14-cv-765, slip op. at 8 (D.D.C. Dec. 12, 2016) (“The Government argues that because the agency had a policy requiring [the official] to forward all of his emails from his [personal] account to his business email, the [personal] account only contains duplicate agency records at best. Therefore, the Government claims that any hypothetical deletion of the [personal account] emails would still leave a copy of those records intact in [the official’s] work email. However, policies are rarely followed to perfection by anyone. At this stage of the case, the Court cannot assume that each and every work-related email in the [personal] account was duplicated in [the official’s] work email account.” (citations omitted)).

searches are still required; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.

Under the FOIA Improvement Act of 2016, agencies must adopt a presumption of disclosure, withholding information “only if . . . disclosure would harm an interest protected by an exemption” or “disclosure is prohibited by law.” If it is your position that any portion of the requested records is exempt from disclosure, American Oversight requests that you provide an index of those documents as required under *Vaughn v. Rosen*, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1974). As you are aware, a *Vaughn* index must describe each document claimed as exempt with sufficient specificity “to permit a reasoned judgment as to whether the material is actually exempt under FOIA.” Moreover, the *Vaughn* index “must describe each document or portion thereof withheld, and for each withholding it must discuss the consequences of disclosing the sought-after information.” Further, “the withholding agency must supply ‘a relatively detailed justification, specifically identifying the reasons why a particular exemption is relevant and correlating those claims with the particular part of a withheld document to which they apply.’”

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. Claims of nonsegregability must be made with the same degree of detail as required for claims of exemptions in a *Vaughn* index. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

**You should institute a preservation hold on information responsive to this request.** American Oversight intends to pursue all legal avenues to enforce its right of access under FOIA, including litigation if necessary. Accordingly, your agency is on notice that litigation is reasonably foreseeable.

To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in electronic format by email or in PDF or TIF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and 24 C.F.R. § 15.106(k), American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to public understanding of those operations. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because “disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government.” The disclosure of the information sought under this request will document and reveal the activities of the federal government, as it directly concerns the communications practices of senior administration officials and the steps taken to ensure compliance with federal records retention law—a matter that President Trump has suggested is extremely important. The requested records would also shed light on the communications of high-ranking government officials charged with executing the housing policy of the United States. The subject of this request is a matter of public interest, and the public’s understanding of the government’s activities and use of resources would be enhanced through American Oversight’s analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes. As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight’s financial interest. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter. American Oversight has demonstrated its commitment to the public disclosure of documents and creation of editorial content. For example, after receiving records regarding an ethics waiver received by a senior DOJ attorney, American Oversight promptly posted the records to its website and published an analysis of what the records reflected about DOJ’s process for ethics waivers. As another example, American Oversight has a project called “Audit the Wall,” where the organization is gathering and analyzing information and commenting on public releases of

14 24 C.F.R. § 15.106(k)(1)(ii), (3).
information related to the administration’s proposed construction of a barrier along the U.S.-Mexico border.  

Accordingly, American Oversight qualifies for a fee waiver.

**Conclusion**

We share a common mission to promote transparency in government. American Oversight looks forward to working with you on this request. If you do not understand any part of this request, have any questions, or foresee any problems in fully releasing the requested records, please contact Dan McGrath at foia@americanoversight.org or (202) 897-4213. Also, if American Oversight’s request for a fee waiver is not granted in full, please contact us immediately upon making such a determination.

Sincerely,

[Signature]

Austin R. Evers  
Executive Director  
American Oversight
