**Re: Freedom of Information Act Request**

Dear FOIA Officer:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, 45 U.S.C. Part 5, American Oversight, Lower Drug Prices Now, and Patients Over Pharma, a project of Accountable.US, make the following request for records.

The outbreak of the novel coronavirus, SARS-CoV-2, and the disease it causes, COVID-19, has been declared a public health emergency at both the national and international levels.<sup>1</sup> Since late 2019, the virus has spread across the globe, sickened millions of people, and resulted in more than 416,000 deaths worldwide.<sup>2</sup> Of particular concern to the public is

whether any treatments or vaccines will be affordable for all who need them.<sup>3</sup> This question has taken particularly prominence in the context of decisions regarding federal investment in coronavirus drug and vaccine development.<sup>4</sup>

American Oversight, Lower Drug Prices Now, and Patients Over Pharma (Requesters) seek to shed light on the administration's handling of this issue.

### **Requested Records**

We request that your agency produce the following records within twenty business days:

A complete copy (including any attachments) of the contract, amendment, memorandum of understanding, or other written agreement between (a) the Office of the Assistant Secretary for Preparedness and Response (ASPR) and/or the Biomedical Advanced Research and Development Authority (BARDA), and (b) AstraZeneca regarding the development of a coronavirus vaccine, as announced by HHS on May 21, 2020.<sup>5</sup>

As this request is limited to a narrow set of recently created and readily identifiable documents, Requesters believe that this request should be assigned to the Simple processing track and should result in a prompt agency response.

Please search for all responsive records from May 1, 2020, through May 31, 2020.

### **Fee Waiver Request**

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, Requesters seek a waiver of fees associated with processing this request for records. The subject of

this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

We request a waiver of fees because disclosure of the requested information is “in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government.”<sup>6</sup> The public has a significant interest in the federal government’s response to the coronavirus, particularly its efforts to ensure the development of a vaccine. Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the federal government, including whether and to what extent it is requiring drug and vaccine developers to ensure products developed with taxpayer dollars are affordable to everyone who needs them.<sup>7</sup> Furthermore, Requesters will make the responses agencies provide to FOIA requests publicly available, and the public’s understanding of the government’s activities would be enhanced through the Requesters’ analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes.<sup>8</sup> As explained below, none of the Requesters have a commercial purpose and the release of the information is not in their financial interest.

As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight’s financial interest. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>9</sup>

American Oversight also has demonstrated its commitment to the public disclosure of documents and creation of editorial content through numerous substantive analyses posted to its website.<sup>10</sup> Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to an ethics waiver received by a senior Department of Justice attorney and an analysis of

Lower Drug Prices Now is a project of the Sixteen Thirty Fund, a 501(c)(4) non-profit organization with no commercial purpose. The release of the information requested is not in Lower Drug Prices Now’s financial interest. Its mission is to educate the public about the importance of affordable and accessible prescription drugs and about the role federally funded research plays in the development of new drugs. Any information gathered through this request will be used to educate the public through reports, press releases, or other media.

Patients Over Drugs is a project of Accountable.US. In May 2020, Accountable.US was recognized as a not for profit, 501(c)(3) organization, with the Internal Revenue Service. Accordingly, Accountable.US does not have a commercial purpose and the release of the information requested is not in Accountable.US’s financial interest. Accountable.US’s

Accordingly, the Requesters qualify for a fee waiver.

### **Guidance Regarding the Search & Processing of Requested Records**

In connection with its request for records, we provide the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics. For instance, if the request seeks “communications,” please search all locations likely to contain communications, including relevant hard-copy files, correspondence files, appropriate locations on hard drives and shared drives, emails, text messages or other direct messaging systems (such as iMessage, WhatsApp, Signal, or Twitter direct messages), voicemail messages, instant messaging systems such as Lync or ICQ, and shared messages systems such as Slack.
- In conducting your search, please understand the terms “record,” “document,” and “information” in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.<sup>16</sup> It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; we have a right to records contained in those files even if material

has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.<sup>17</sup>

- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,<sup>18</sup> and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency's archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

## **Conclusion**

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records, please do not hesitate to contact us to discuss this request. We welcome an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, we can decrease the likelihood of costly and time-consuming litigation in the future.
