Re: Expedited Freedom of Information Act Request

Dear FOIA Officer:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, American Oversight makes the following request for records.

On May 27, 2020, the U.S. Centers for Disease Control and Prevention (CDC) entered into a \$16 million sole-source contract with Deloitte Consulting LLC to launch and run a “Vaccine Administration Management System” to track the administration and distribution of any COVID-19 vaccines.¹ It remains unclear how this new system will operate, including how it will affect pre-existing state vaccine registries and providers who cannot meet all of the reporting requirements.²

American Oversight seeks records that may shed light on the distribution and administration of any forthcoming COVID-19 vaccine, including how any data related to vaccinations will be collected or shared.

Requested Records

American Oversight seeks expedited review of this request for the reasons identified below and requests that your agency produce the following records as soon as practicable, and at least within twenty business days:

¹ Darius Tahir & Rachel Roubein, *Trump Officials Rush to Introduce New, Untested Vaccine Tracking System*, Politico (Sept. 13, 2020, 9:00 AM), <https://www.politico.com/news/2020/09/12/trump-vaccine-tracking-system-412968>.

² *Id.*

Any assessments, reports, or projections provided by or on behalf of Deloitte Consulting LLP, or any of its affiliates, regarding the tracking of the distribution and administration of any COVID-19 vaccines.

Please provide all responsive records from May 27, 2020, through the date of the search.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is "in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government."³ The public has a significant interest in the distribution and administration of any COVID-19 vaccine.⁴ Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the federal government, including how effectively and securely the administration of vaccines will be tracked.⁵ American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes.⁶ As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.⁷

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through regular substantive analyses posted to its website.⁸ Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to the Trump Administration's contacts with Ukraine and analyses of those contacts;⁹ posting records and editorial content about the federal government's response to the Coronavirus pandemic;¹⁰ posting records received as part of American Oversight's "Audit the Wall" project to gather and analyze information related to the administration's proposed construction of a barrier along the U.S.-Mexico border, and analyses of what those records reveal;¹¹ the posting of records related to an ethics waiver received by a senior Department of Justice attorney and an analysis of what those records demonstrated

Accordingly, American Oversight qualifies for a fee waiver.

Application for Expedited Processing

Pursuant to 5 U.S.C. § 552(a)(6)(E)(1) and your agency's regulations, American Oversight requests that your agency expedite the processing of this request.

I certify to be true and correct to the best of my knowledge and belief that the information requested is urgently needed in order to inform the public concerning actual or alleged government activity, and American Oversight is primarily engaged in disseminating the information it received from public records requests to the public.

First, I certify to be true and correct to the best of my knowledge and belief that the information requested is urgently needed in order to inform the public regarding how the administration, working through Deloitte, will track the administration and distribution of any COVID-19 vaccines. Recent reporting demonstrates widespread interest in how the federal government will make any COVID-19 vaccine widely available, particularly in light of the expedited timetable it appears to have set for itself.¹⁴ Pressing questions, about which more information is urgently needed, include: (1) how public agencies, private manufacturers and distributors, and health care providers administering vaccines will work together to monitor if the vaccines are effective or producing adverse effects; (2) whether the shots are being administered to priority populations first, and; (3) whether individuals are receiving the correct shots at the correct time.¹⁵ The security of individually identifiable information that may be collected as part of a federal vaccine tracking effort also presents legal questions and concerns.¹⁶ There are also significant questions regarding how effectively and quickly the federal government will be able to

launch a new data reporting system,¹⁷ particularly in light of the problems that followed the federal government’s attempt to create a new hospital data reporting system this summer.¹⁸

American Oversight has requested records with the potential to shed light on these matters, by making public records reflecting any assessments or reports given to the federal government by Deloitte pursuant to the latter’s contract to track the distribution and administration of any COVID-19. Full transparency regarding the distribution and administration of any COVID-19 vaccine—including through the release of government records on these topics—is particularly necessary right now in light of crumbling public trust around any fast-tracked COVID-19 vaccine.¹⁹

I further certify that American Oversight is primarily engaged in disseminating information to the public. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. Similar to other organizations that have been found to satisfy the criteria necessary to qualify for expedition,²⁰ American Oversight “gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into a distinct work, and distributes that work to an audience.”²¹ American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, and other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.²² As discussed previously, American Oversight has demonstrated its commitment to the public disclosure of documents and creation of editorial content.²³

Accordingly, American Oversight's request satisfies the criteria for expedition.

Guidance Regarding the Search & Processing of Requested Records

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics.
- In conducting your search, please understand the terms "record," in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.²⁴ It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files

even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.²⁵

- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,²⁶ and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

Conclusion

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or
