**Re: Expedited Freedom of Information Act Request**

Dear FOIA Officer:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of the Department of Homeland Security (DHS), 6 C.F.R. Part 5, American Oversight makes the following request for records.

Reportedly, an unclassified DHS analysis shows that a foreign actor is attempting to undermine faith in the United States' election system with rhetoric similar to that being used by President Trump, Attorney General Barr, and others.<sup>1</sup> American Oversight seeks a record with the potential to shed light on the extent of foreign disinformation influencing the upcoming election.

**Requested Records**

American Oversight seeks expedited review of this request for the reasons identified below and requests that DHS produce the following record as soon as practicable, and at least within twenty business days:

The unclassified analysis produced on or about September 3, 2020, by DHS's Office of Intelligence and Analysis, regarding attempts by a foreign actor to undermine the U.S. electoral system.<sup>2</sup>

Given that this request is limited to one specific, recent, high-profile, and readily identifiable document, American Oversight expects that, in addition to qualifying for expedited treatment, this request can be processed on the Simple processing track, and result in a swift response from DHS.

## **Fee Waiver Request**

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is "in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government."<sup>3</sup> The public has a significant interest in a document created by DHS demonstrating a foreign actor's attempts to undermine faith in the U.S. electoral system. Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the federal government, including whether and to what extent the rhetoric employed by this foreign actor is similar to that used by top U.S. government officials. American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes.<sup>4</sup> As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>5</sup>

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through regular substantive analyses posted to its website.<sup>6</sup> Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to

Accordingly, American Oversight qualifies for a fee waiver.

### **Application for Expedited Processing**

Pursuant to 5 U.S.C. § 552(a)(6)(E)(1), American Oversight requests that your agency expedite the processing of this request.

election, in which many individuals have already begun voting, is vital to informing the public about potential foreign interference.<sup>12</sup>

Moreover, I certify to be true and correct to the best of my knowledge and belief that there is an urgent need to inform the public about foreign influence in this election. The extensive media coverage on the topic of foreign interference in the election and a recent poll, showing a majority of U.S. residents are “extremely” or “somewhat” concerned about potential foreign interference by a foreign government the 2020 election,<sup>13</sup> demonstrate that the public has an immense interest in it. American Oversight’s request seeks information that can shed light on the government’s actions, including the extent to which top government officials are echoing the rhetoric of a foreign actor attempting to influence the election.

I further certify that American Oversight is primarily engaged in disseminating information to the public. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. Similar to other organizations that have been found to satisfy the criteria necessary to qualify for expedition,<sup>14</sup> American Oversight “gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into a distinct work, and distributes that work to an audience.”<sup>15</sup> American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, and other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>16</sup> As discussed previously, American Oversight has demonstrated its commitment to the public disclosure of documents and creation of editorial content.<sup>17</sup>

Accordingly, American Oversight's request satisfies the criteria for expedition.

### **Guidance Regarding the Search & Processing of Requested Records**

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.<sup>18</sup> It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.<sup>19</sup>

- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,<sup>20</sup> and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

## **Conclusion**

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.
